

4/28/04 - Revision to Attachment L of SDWP Operations Manual Chapter VII, WIA Eligibility Certification Process, issued February 26, 2002.

INSTRUCTIONS FOR DETERMINING LIMITED EMPLOYMENT OPPORTUNITIES FOR WIA DISLOCATED WORKER ELIGIBILITY

When determining an applicant's eligibility for WIA Dislocated Workers programs, it is often necessary to determine whether the applicant's previous occupation/industry is declining. This question should be answered as follows:

1. Find the applicant's previous occupational title on the attached list. The titles are listed by SOC (Standard Occupational Classification) code, use a crosswalk such as the one in O*NET to "convert" from the DOT (Dictionary of Occupational Titles) code to the SOC code.
2. If the "Limited Employment Opportunities" column on the far right side of the table says "yes", then the applicant is unlikely to return to a previous occupation.
3. If the "Limited Employment Opportunities" column is blank, the applicant may still be considered "unlikely to return" if there is another qualifying reason, such as an unsuccessful job search, insufficient education for re-entry into former occupation, a poor employment history, etc. (see Attachment D, Part 2 of Chapter VII of the Operations Manual for a complete list of acceptable documentation for "unlikely to return").

BACKGROUND

The following table was prepared by the California Employment Development Department (EDD) Labor Market Information Division (LMID) and provides occupational employment projections for San Diego County, 2001-2008. Partnership staff marked an occupation as "yes" in the "Limited Employment Opportunities" column if **at least 2** of the following statements were true:

1. The "**Absolute Change**" (new job growth) for the occupation is **less than 100**; or
2. The "**Percent Change**" (new job growth percentage) for the occupation is 50% or less (**7.65% or lower**) of the overall new job growth rate for all jobs in the county (15.3%); or
3. The "**Openings Due To Separations**" (openings resulting from a worker leaving the position) is less than 400.

(1) Employment and projections contained in these tables are considered estimates.

(2) March 2000 benchmark.
